

## Speciality, Experience and Quality **Under our Commitment...**

AYKEN  ELECTRIC

AYKEN  ENERGY

## AYKEN ELECTRIC ENERGY ENGINEERING CONSTRUCTION CO. COMPANY PROFILE

The Construction and Energy Industries are locomotive industries which leads many sub-industries alongside their own progresses. These progressing industries are requiring both highest technological advanced installations and also high quality hardware to be applied with an increasing demand.

Since its foundation in 1998, AYKEN Co. Ltd. has been focused on electrical and mechanical installations as the main aspect of installation works, coupled with technological hardware as primary area of activity, working by turn-key electrical, mechanical and automation EPC contracts.

AYKEN Co. Ltd. have completed many National and International contracts, with a principle of providing reliable engineering and contracting services with high quality and well disciplined business principles governed by the ISO 9001-2000 Quality Management System, ISO 14001:2004 Environmental Management System and TS-18001 Occupational Health and Safety Management Systems. The basic principle constituting the quality policy of AYKEN is to complete and commission all the contracted works and productions within the specified budget and time schedule assigned by the contract, in compliance with the determined technical standards and norms.

AYKEN Co. Ltd. has already completed many engineering and contracting services for electrical – electronic installations in many projects successfully and currently is working and proceeding with ongoing contracts at many locations in Turkey and in other countries.

## OUR QUALITY POLICY

Our quality policy is to be able to meet the demands and expectations of our customers completely through our integrated engineering concept that can settle with the advancing technology and adopting customer satisfaction principle; to bring our firm among the level of industry leaders by adopting all changing conditions in accordance with the business code of conduct without compromising our quality management system and technical necessities and to develop our system continuously by complying with the terms of our quality management system.

## OUR VISION

To become a company that could meet the powerful customer demands completely in any scale with a regular growth target both in Turkey and International markets in the next years utilizing customer oriented integrated service understanding.

## OUR MISSION

To create permanent satisfaction meeting the expectations of our customers by completing the services we have committed under the contracts concluded with our customers in accordance with demanded standards within the scope of the stipulated budget and time through integrated engineering concept.

## OUR GOALS

1. To adopt the competitive conditions within the market
2. To rank among industry leaders
3. To perform also in international markets
4. To achieve a sound and planned real growth rate
5. To adopt total quality management application within the company
6. To carry out our commitment within the frame of our contracts

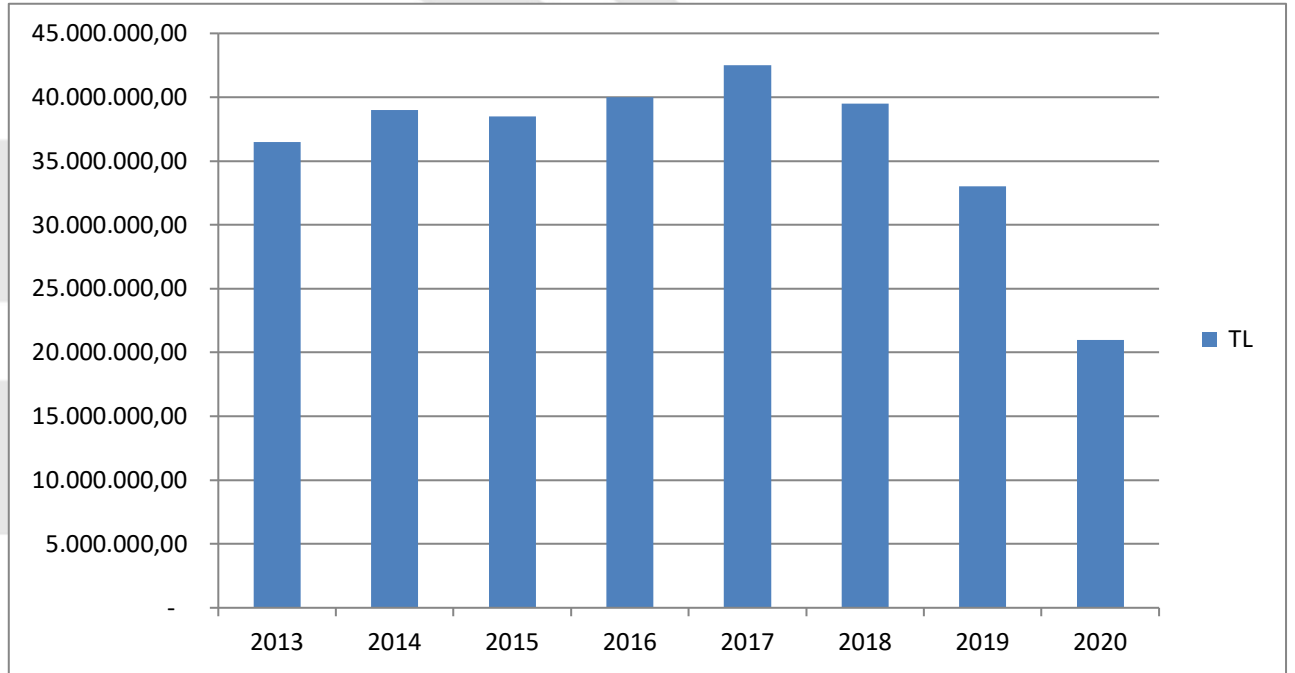

## ENGINEERING & CONTRACTING SERVICES

Electrical & Mechanical engineering and contracting services of the Ayken Company can be described as the Electrical&Mechanical and I&C Systems design and erection for all kind of Buildings including all utility type buildings, Industrial Plants, Thermal Power Plants, Small Hydro Power Plants and all utility type buildings like hotels, hospitals, malls, residential complexes.

Ayken Ltd. Co.'s engineering and contracting services always aim to achieve the latest technology as all the Power Plants, Industrial Complexes and all Intelligent Buildings shall be constructed with the latest technological systems and applications. All the latest norms and standards shall be taken into consideration during the design and the erection of all these type of building constructions.

M.Koray ERYILMAZ is the company manager of Ayken Co Ltd., also coordinates the contracting services. As a 1993 graduate of Middle East Technology University Electrical-Electronics Engineering Dept., M.Koray ERYILMAZ, worked in General Electric Medical Systems and Enersis Co.Ltd. after his graduation. Since 1998, M. Koray ERYILMAZ has been managed Ayken Co. Ltd. as the Company Manager and Chief Engineer.

Electrical Systems for the engineering and contracting services and solutions are listed below that are provided by Ayken Co. Ltd. for both design and erection solutions.

**FINANCIAL INCOME STATEMENT FOR LAST FIVE YEARS****2013:** 36.500.000 TL**2014:** 39.000.000 TL**2015:** 38.500.000 TL**2016:** 40.000.000 TL**2017:** 42.500.000 TL**2018:** 39.500.000 TL**2019:** 33.000.000 TL**2020:** 21.000.000 TL

## REFERENCES

M.Koray ERYILMAZ is the company owner and company manager, coordinates the contracting services in Ayken Co. Ltd.. M.Koray ERYILMAZ graduated from T.E.D Ankara College in 1989 and Middle East Technical University Electrical Electronics Engineering Department in 1993. He got the post graduate M.Sc. degree from Middle East Technical University in 1996. M.Koray ERYILMAZ worked in General Electric Medical Systems Co. and Enersis Co. Ltd. after the graduation in the field engineer, site chief, project manager and group manager positions for many contracts before the establishment of Ayken Ltd Co. Ayken Ltd Co. has been established in 1998 and managed by M. Koray ERYILMAZ as the owner and Company Manager since 1998.

The references ongoing and completed projects by Ayken Ltd Co. are listed below.

## ONGOING CONTRACTS

### • BOTAŞ 4,2 MW WEPP

<b>TOTAL PROJECT TIME:</b>	450 DAYS
<b>PROJECT BUDGET:</b>	3,000,000 EURO
<b>MAIN CONTRACTOR:</b>	(BOTAŞ)
<b>PROJECT COORDINATOR:</b>	Hüseyin AKMAZ

4,2 MW wind energy power plant with one turbine, the electrical Works and the supply and assembly of the wind turbine will be done by Ayken Elektrik.

### • 10 MW BIOMASS ENERGY POWER PLANT

<b>TOTAL PROJECT TIME:</b>	6 MONTHS
<b>PROJECT BUDGET:</b>	100,000USD
<b>MAIN CONTRACTOR:</b>	EKOMAS ENERJİ
<b>PROJECT COORDINATOR:</b>	Hakan ERTAN

10 MW Biomass Energy Power Plant, instrumentation, equipment, assembly, Project drawing and the commissioning of the power plant is done under Consultancy of Ayken Elektrik.

### • 1,5 MW BIOMASS ENERGY POWER PLANT

<b>TOTAL PROJECT TIME:</b>	6 MONTHS
<b>PROJECT BUDGET:</b>	328.000 USD
<b>MAIN CONTRACTOR:</b>	Hendese Mak. Müh. A.Ş.
<b>PROJECT COORDINATOR:</b>	Eymen Kol

1,5 MW Biomass Energy Power Plant, steam turbine and auxiliary equipment electrical and automation works are under contract of Ayken Elektrik.

- **ANAGOLD MINING**

**TOTAL PROJECT TIME:** 6 MONTHS

**PROJECT BUDGET:** 922.017,01 USD

**MAIN CONTRACTOR:** Anagold Maden Ser.

**Tic. A.Ş.COORDINATOR:** Shaun Schwarz

Supply, erection, tests, start up, commissioning of all Electrical Systems are under contract of Ayken Electric Energy& Eng. Company

- **TEPE – MESA MOZAIK RESIDENCES PROJECT**

**TOTAL PROJECT TIME:** 30 MONTHS

**PROJECT BUDGET:** 2.250.000 USD

**MAIN CONTRACTOR:** TEPE MESA

**PROJECT COORDINATOR:** Cem GÜRSOY

Supply, erection, tests, start up, commissioning of all Electrical Systems are under contract of Ayken Electric Energy& Eng. Company

- **NATIONAL DEFENSE UNIVERSITY DEAN’S BUILDING -  
(TURKISH MILITARY ACADEMY )**

**TOTAL PROJECT TIME:** 18 MONTHS

**PROJECT BUDGET:** 1.610.000 USD

**MAIN CONTRACTOR:** YP INSAAT

**PROJECT COORDINATOR:** CEYHUN PEKER

Supply, erection, tests, start up, commissioning of all Electrical Systems are under contract of Ayken Electric Energy& Eng. Company

- **ANKARA MUNICIPALITY SİNCAN WASTE BURNING PLANT  
(PHASE 2 )**

**TOTAL PROJECT TIME:** 3 MONTHS

**PROJECT BUDGET:** 500.000 USD

**MAIN CONTRACTOR:** ITC LTD.Co.

**PROJECT COORDINATOR:** Erol Çetinkaya

Maintenance and repair, erection tests, start up, commissioning of Electrical Systems , Instrumentation, Pressured Air System, Wet Scrapper System are under contract of Ayken Electric Energy& Eng. Company

## COMPLETED CONTRACTS
